WORK EXPERIENCE

Fullstack developer Bluumi Mobile Apps 03/2025 - 06/2025

Implemented Features:

- Implemented **automated testing** using **PHPUnit** in Laravel.
- Developed an **action logging system** in the admin panel with graphical **data visualization**.
- Built and integrated a real-time **notification system**.
- Added new features to already deployed projects.
- Performed **testing and quality assurance** on production applications.
- Fully developed an **eCommerce system**, including both the **admin dashboard** and the **public-facing site**.

Technologies Mastered:

JavaScript · CSS · HTML · Blade · Laravel · AdminLTE · PHP · Middleware · Tokens · Laravel Sanctum · MySQL · Docker · XAMPP · Apache · PowerShell · Webpack · Docker Compose

EDUCATION

IES Nervión: Higher National Diploma in Multiplatform Application Development Seville, Spain.
